

NATION BUILDING

India's Largest College Case Study Competition

Task Statement:

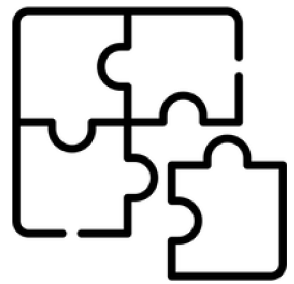

*Enabling 100 World-Class
Higher Education Institutions
and 75% Tertiary GER by 2047*

OUR TEAM

1. ANSH PAL (IIT GUWAHATI)
2. YASH TRIVEDI (IIT GUWAHATI)

GOAL: To Increase Tertiary Gross Enrollment Ratio

Reasons Contributing to Low Gross Enrollment Ratio in Higher Education in India

Mismatch between Education and Employment

Lack of Skill and Practical based Education

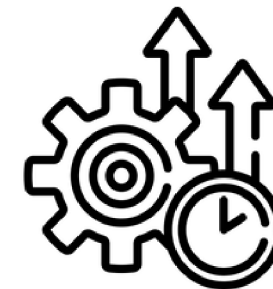

Awareness Challenges Regarding Different Fields of Study Among Studentst

Enhancing Higher Education Access and Relevance Through Curriculum Innovation

Empowering Students Through Curriculum Enhancement for Holistic Higher Education

Increasing Practical Knowledge in Our Curriculum

Enhancing Curriculum to Foster Student Engagement, Industry-Relevant Skills.

Proposed Solutions

Improved Grading System

Each college will have a dedicated committee responsible for implementing a standardized grading system for all subjects. Professors will evaluate papers, but final grading decisions will be made by the committee, ensuring fairness and normalisation.

Continuous Evaluation System

A continuous evaluation system in which project and assignments have same or more weightage than weightage of theory and practical exams

Inviting Guest Lecturers and Industry

Inviting guest lecturers and industry leaders from various fields to help students understand the relevance of their studies in society, making learning more engaging and meaningful

Introducing Skill courses

Introducing two skill courses per semester. To achieve this, we are reducing core subject syllabi and aligning them with skill courses, making core subjects more engaging and enhancing student skills

Integrated Projects

Link each semester, students will undertake compulsory projects that combine the skills and core subjects from the previous semester.

Duration of semester

Transitioning to Five-Month Semesters. Extending the semester length provides students with more time to delve deeper into their subjects, improving their understanding and proficiency.
